BR6004 W-G1

Integrated DSL Broadband Wireless Router

EzeSetup™ Setup your Router in Minutes, not hours by Dynamode

Safe&Secure™ Firewall Technology protects you online, everytime by Dynamode

Introduction

The newly developed BR6004 W-G1 is a high performance Cable/DSL compliant Broadband Router with integrated 802.11g Wireless Access Point, Safe&Secure™ Firewall and 4-Port Fast Switch.

Fully compatible with all Cable/DSL environments such as NTL® or Telewest® at home or in the office you can be up and running in minutes thanks to the newly developed EzeSetup web-based display.

Keeping you safe on the Internet has always been our top priority and this Router is no exception. Featuring the award wining Safe&Secure™ SPI Firewall with features not normally seen at this low price point together with a standard 802.11g 54Mbps Wireless Access Point featuring high encryption WPA/WPA-2 algorithms for total Wireless security.

So for todays and tomorrows Broadband applications look no further than the new BR6004 W-G1 – ***only from Dynamode***
